## PRODUCT KNOWLEDGE GRAPH

# Heating

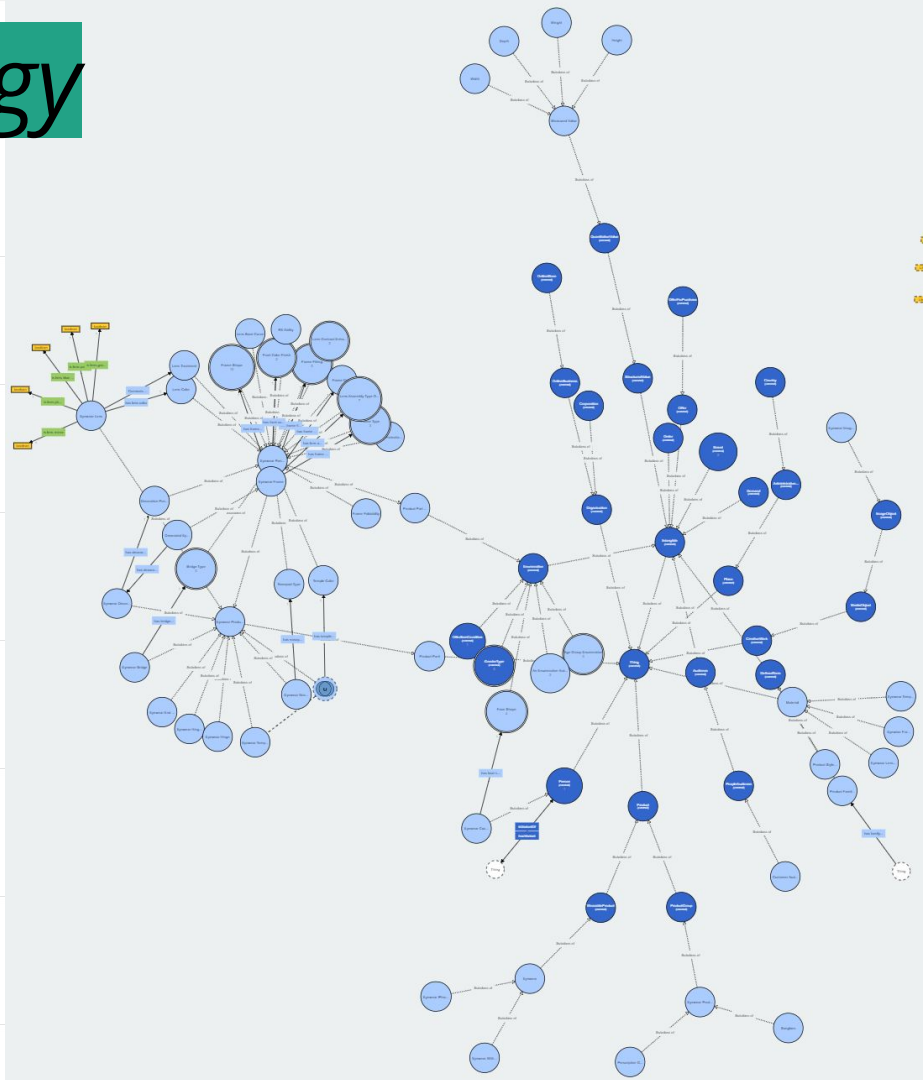

*Building Essential Semantics*

# A formalized *ontology* for **eyewear**

- Extended 25+ Schema.org and GS1 classes
- Modeled ~60 domain classes
- Modeled ~25 domain properties
- Modeled 46 eyewear characteristic instances
- Asserted ~900 axioms (300+ logical)
- A few SWRL rules as a case-in-point
- 350+ annotations, notes and comments on every resource to help with continued work

# Automating the creation of structured product data, we leverage a **product knowledge graph** architecture to optimize for search and generative AI applications.

## Standard

ALL PRODUCT VARIANT SHARE  
THE SAME DESCRIPTION

For every waterwoman looking to bring style on their next outing without leaving functionality behind, this frame is ready for the journey. Designed to move with you, it features a sleek profile and performance-driven details that stand up to the elements. Comfort, clarity, and versatility come together for a look that's as capable as it is confident. Whether you're chasing horizons or casting lines, these sunglasses are built to keep up, and help you see it all.

## AI-Generated

EACH PRODUCT VARIANT GETS ITS  
OWN PERSONALIZED DESCRIPTION

For every waterwoman looking to bring style on their next outing without leaving functionality at the dock, meet Seadrift. This sleek, 8-base, Bio-Resin frame in a striking **Urchin color** lets you roll with the waves, while purpose-built features like **Hydrolite™ rubber and micro-sculpted side shields** are there when you're ready to take the helm. Crafted with **Polarized Glass (580G) lenses**, Seadrift offers exceptional clarity and protection for long days on the water. Seadrift comes with multiple sizing options, so no matter who's looking, there's no end to what you'll see. Whether the wind takes your drift past reefs or a good weed line, you'll be ready to pick your shots with frames built to perform.

Global revenue from conversational AI services is expected to grow from \$14.6 billion in 2025 to **over \$23 billion** by 2027, driven by a surge in enterprise investment fueled by the rise of **agentic AI**.

# Condensation

*Optimizing for Humans and Agents  
Alike*

To meet user intent, data modeling must capture not just facts, but **context**.

By assigning clear roles to data points and attributes within structured frameworks, we align the agents with the way users express themselves in natural language.

Researched with AI

Women's sport performance sunglasses designed for boating prioritize blue polarized lenses to reduce glare and enhance contrast on the water, offering clearer vision while ensuring comfort and security during active wear. These specialized lenses protect against the sun's harmful rays, crucial for prolonged exposure. Look for features like a wrap-around design to block out wind and splashing water, ensuring optimal protection and uninterrupted focus on the activity.
